FEATURES AT A GLANCE

Cooling efficiencies up to:
17 SEER2 / 11.7 EER2

Heating efficiencies up to: 9.5 HSPF2

Nominal Sizes: 2 to 5 Tons

Cooling & Heating Capacities:
22.2 to 57 kBTU

Powered by EcoNet technology: Yes
(when paired with the EcoNet® Smart Thermostat and installed as part of a complete AHRI matched Ruud EcoNet-enabled system)

Sound Rating⁵: As low as 55 dBA

Compressor Type: Inverter Driven,
Variable Speed Twin Rotary

Condenser Coil Type: 7mm

PlusOnes:

 **PlusOne® Variable Speed Twin Rotary Compressor & Inverter Drive** – Variable speed operation with EcoNet® Smart Thermostat

 **PlusOne Diagnostics** – Bluetooth technology aids in quick & easy service

 **PlusOne Refrigerant Detection System™** – Integrated, patented design providing system protection and homeowner peace-of-mind with low GWP refrigerant monitoring

 **PlusOne Triple Service Access** – 15 in. wide industry leading corner service access, two-fastener removable corner and easily removable individual lower panels

Limited Warranty²:

Conditional Parts – 10 Years
(registration required)

ENDEAVOR

Ruud® Endeavor® Line Achiever Plus® Series

Compatible in a new system or as a replacement in any existing R-454B system¹, the EcoNet® enabled Ruud Endeavor Line Achiever Plus Series RP17AY Top-Discharge Universal Heat Pump excels in all install situations. Plus, super-efficient technology keeps your energy bills low, and your comfort high.

Ruud.com/Endeavor

Clever Innovation. Hardworking Performance.

Innovation You Can Count On

Patented industry-first features and 360+ design make the Ruud Endeavor RP17AY a smart choice.

Peace-Of-Mind Performance

Relax, you're covered by one of the best warranties in the industry²—10 Years Conditional Parts when installed as a heat pump only or as part of a system.

Energy Savings

Just like a vehicle's MPG, the higher the SEER2, EER2 and HSPF2 rating (Seasonal Energy Efficiency Ratio / Energy Efficiency Ratio / Heating Seasonal Performance Factor), the higher the efficiency of your heat pump—resulting in more energy savings. Keep in mind, there are other factors that enhance overall efficiency such as system matching, sizing, ductwork and installation. By working with a properly trained contractor, you can be confident that you are choosing the best heating and cooling system for your home's comfort—and your finances.

Exact Comfort

Inverter driven, variable speed, twin rotary compressor technology features fully variable cooling and heating operation between 35% and 100% of capacity³ to continuously meet your ever-changing heating and cooling needs. You'll enjoy exact temperature and advanced humidity control that combine to exceed your optimal comfort expectations.

Reduced Emissions

Households generate 72%⁴ of greenhouse gas emissions, so switching to a heat pump can make a big difference for the environment—today.

Reduced Environmental Impact

The 7mm condenser coil provides a decrease in refrigerant requirements up to 15%, lowering the amount of greenhouse gases emitted while contributing to our sustainability goals. A win for all of us.

Universal Install Compatibility

The RP17AY works with nearly any R-454B heating & cooling system option—including Ruud systems that are powered by EcoNet[®] technology and systems that work with EcoNet technology, or as a universal replacement with minimal alterations required.¹ Whether your choice is driven by electrification initiatives or dual fuel opportunities—this is the comfort solution for you.

Rugged Curb Appeal

Curved louvered panels and rugged corner posts provide excellent support and protection to internal components, while the overall modern cabinet aesthetics, including the corrosion-resistant composite base pan and powder coat paint system, allow your unit to put its best face forward for years to come.

Quiet Operation

Efficient home comfort shouldn't be noisy. That's why our heat pumps are engineered with acoustics in mind. Sound-dampening features such as refrigerant tubing design, fan blade approach, composite base pan and innovative compressor and drive technologies ensure that as efficiency increases, sound levels remain low—as low as 55 dBA.

SOUND RATING⁵

Among Heat Pumps, This One's A Star⁶

Earning ENERGY STAR[®] recognition means products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. ENERGY STAR certified heating and cooling equipment can enhance the comfort of your home while saving energy—which saves money on utility bills and protects our climate by reducing harmful carbon pollution and other greenhouse gases.

ENDEAVOR

We Thought of Everything... & Then Some

We evaluate every detail of a product from top to bottom, inside and out and every angle in between. That's 360+. And that's why you can count on this gas furnace to bring you and your family years of efficient and dependable indoor comfort.

TESTED. TRUSTED. TOUGH.

From the smallest part to complete comfort systems, we engineer quality into everything we make so we can be sure it's tough enough to deliver the ultimate performance you can count on day after day, year after year. That reliability is what makes Ruud different—and better.

With the EcoNet[®] app⁷ and EcoNet Smart Thermostat, you can remotely control your smart products, monitor your energy usage, and get real-time alerts and notifications for added peace-of-mind.

EcoNet Mobile App

EcoNet Smart Thermostat

Keep your home running smoothly

Get peace-of-mind – Receive proactive alerts, real-time notifications and service reminders to protect your home

Control and monitor – Remotely manage temperature and choose operation modes for increased performance and efficiency

Increase savings & value

Energy management – Set personalized schedules to match your daily routine and usage needs

Smart home integration – Connect with other smart home systems for a more advanced living environment
